They Are Rapidly Clearing  
Calendars for an Early  
Adjournment.

## "HISTORY" BILL DEFEATED

Meets Waterloo Because It Is  
Not Orthodox on Mecklen-  
burg Declaration.

[Special to The Times-Dispatch.]  
RALEIGH, N. C., March 6.—Fast and furious is the pace of the North Carolina General Assembly in the rush to clear the calendars so that there can be a final adjournment at the earliest possible moment, morning, afternoon and evening sessions being the order to-day.

The evening session was continued to nearly midnight in order that adjournment for the session might be possible Monday. Ever and anon bills of State interest, or in which local fights developed, have clogged the wheels of legislation in the rapid grinds of bills passed.

The bill that got through the Senate with its plumage badly ruffled, and that it had provided that county boards of education be authorized and directed to purchase sets of the history of North Carolina, by Capt. S. A. Ashe, for the rural schools, and was passed to merely authorize the purchase of a set in the House and adjourned the biggest fight of the day, meeting its Waterloo in the end by a vote of 28 to 58. The fight against it was led by Representative Dowd, of Mecklenburg, and Speaker Graham. They fought it on the ground that the history is not orthodox in its position as to the Mecklenburg Declaration of Independence, in that it favors May 21 as the correct date, instead of March 20, 1776.

The House passed the Senate bill, sending a message to the Governor, of adjournment, first to fall in the Civil War, this session to be in Capitol Square, Raleigh.

**Sensational Contest.**  
There was a sensational contest between Representative Morton H. Hanover, and Representative Kitchin, of Halifax, brother of Governor Kitchin, over a bill by Morton involving the Wilmington Board of Audit and Finance, which has been appointed by the Governor. The bill, which is now in the House, is a recommendation of the Wilmington Board of Audit and Finance. This time Governor Kitchin made appointments other than those desired by the New Hanover delegation. Now Mr. Morton comes in with a bill to declare the member appointed by the Governor ineligible and providing that hereafter the Legislature shall appoint this board on recommendation of the Wilmington Representative and Senator.

Representative Kitchin pronounced the bill a direct assault on the face of his brother, the Governor, and appealed for the defeat of the bill. It was voted down finally by just one vote—22 to 23. All afternoon and evening friends of each have been hard at work marshaling forces for the final struggle, in that Mr. Morton has arranged to have the vote reconsidered, declaring that the fight has just begun.

Lined up with him is Senator Emile, of Wilmington, who is willing to make the passage of the bill in the Senate a personal matter in the event they can get the bill through the House on reconsideration, many members not having voted this afternoon. Governor Kitchin and his supporters were crowded this evening, but found it impossible to get together.

**Feature of Senate.**  
The feature of the Senate was a protest on the part of Senators Lockhart and Long, who in writing to the Governor, declared that they were not to be entered on the journal as against the action of the Senate in passing the Blow-Bassett substitute instead of the noted Lockhart subsection "A," an anti-trust bill. The protest, as ordered, was declared, and the majority of the majority of the Senate, there having been a fifth vote on the necessary three-fifths majority, the Ormond bill to amend the Constitution by relieving the Legislature of considering charters for municipalities and other corporations failed to pass, to the deep regret of many who were present.

The House passed to-night the bill to increase the State appropriation to the State Board of Health. It was passed without opposition, carrying \$4,000 instead of \$2,000, and providing that a secretary shall be in the field all his time.

There was a fiery debate over the Ormond Senate bill, giving the sheriff, deputies and constables the right to search for and seize illicit distilleries, and a majority of 23 for each side, the officers being given the right to arrest all persons found in the premises.

Mr. Underwood declared that prohibition is the greatest force in the world. Finally the Graham amendment was passed.

## In the Morning

Try a Charcoal Lozenger and a Glass of Water If Your Mouth Is Foul and Your Mouth Tastes Bad.

Immediately upon arising in the morning, should you have a bad breath and a disagreeable taste in your mouth, try a charcoal lozenger. Simply chew the lozenger up as you would a candy, and drink a glass of water, washing it down into the stomach in this manner. The effect is almost magical. The mouth becomes sweet and the breath pure and fragrant in a very short time.

After a few days you will notice that your stomach is digesting food much better. All traces of gases and sour stomachs disappear, and the perfect assimilation promoted by a healthy stomach will build up strength and muscle, and your bad breath and coated tongue will be a thing of the past.

Give Stuart's Charcoal Lozengers a trial. They are assured, and positively no bad effects can arise from the use of charcoal. Stuart's Charcoal Lozengers are made of young willow wood charcoal and pure fresh berries taken direct from the bee hive. You may eat all you want, give them to every member of the family. They will cleanse and purify the stomach and keep it clean and sweet.

Stuart's Charcoal Lozengers are good for everybody at any time. Try them. For sale everywhere, 25 cents per box. Single box will be sent free by mail upon request. Address E. A. Stuart Co., 290 Stuart Bldg., Marshall, Mich.

## "77" Humphreys' Seventy-Seven breaks up Colds and GRIP

The manifestations of Grip are all met by the use of "Seventy-seven."

It stops the burning Coryza of Influenza, giving quick relief. It relieves the Cough. It soothes the Throat.

It takes the kink out of the lame back by helping the Kidneys and Bladder.

It clears the way to Health and Happiness.

All Drug Stores, 25c. or mailed. Humphreys' Home, Medicine Co., Cor. William and Ann Streets, New York.

ment, reducing the fee from \$25 to \$20. Was adopted, and the bill was passed. The Senate concurred, and it was ordered enrolled for ratification.

A resolution was introduced and placed on the calendar, in the Senate that the Assembly adjourn sine die Monday at noon.

## SHOT WHILE CALLING

Says Four Men Demanded Money, Then  
Fired on Him.

NEW YORK, March 6.—Abraham Bloom, who lives with his wife at 124 East Fourth Street, and who formerly kept a saloon at 152 Ludlow Street, was shot in the left arm last night while calling upon Mrs. Nettie Kellerman at the boarding-house of Mrs. Pauline Silverman, 156 West One Hundred and Twenty-second Street.

According to the story Bloom told the police, he had called for seven years, but she was not in, and the door was opened by Mrs. Kellerman, whom he had also known for several years.

She invited him in, and they went to the kitchen and began to play cards. Bloom said his shoes hurt, and he took them off and sat in his stockings.

While the game was in progress, he says, there came a ring, and he went to the door. He found four men on the steps. They spoke in Yiddish, and asked him for \$50 for a sick friend. Bloom refused, and then he says they asked him for \$10. He refused again, one exclaimed: "Go ahead, do your worst."

Bloom says he ran back into the kitchen, the four men following. In the kitchen he says one of them shot him in the back of the head with a revolver.

Wanted white house dry. Indiana Women Will Ask Mrs. Taft to Bar Wine From Table.

COLUMBUS, IND., March 6.—A number of women in this city have started a movement to petition Mrs. Taft, wife of the President, to follow the example set by the wife of Rutherford B. Hayes and not allow intoxicating liquors to be served on her table in the White House.

Some time ago Mrs. Taft was quoted as saying that though her husband did not use wine she would allow it on the table, as it had been a custom in the past, and she had no intention of changing an established usage.

Mrs. John Little Morris started the movement here. At first it was intended to present the petition only to church organizations, but later it was decided to include all the literary city clubs, and practically all these organizations have now been approached.

They were not asked to sign by membership, but the resident of each organization was asked to sign the petition and carry a number of members she represented. Mrs. Morris said to-day that between 400 and 500 Columbus women would be represented.

The document has been signed by the presidents of all the organizations to which it has been presented, with the exception of the Columbus Culture Club, the Magazine Club and the Tri-Kappas.

Mrs. Harry C. Clay, president of the Culture Club, says there is a difference of opinion in her club as to the advisability of signing the petition and therefore she declined to sign it. She further says that the members of her club have declined to give their consent because they believed that the matter was one which Mrs. Taft should attend to herself, and she was unwilling to have private business to suggest what she should do on her table.

## DIED ON TRAIN

Kentuckian, Returning from Inauguration, Develops Pneumonia.

LOUISVILLE, KY., March 6.—On the special train carrying the 400 Kentucky Republicans who attended the inauguration, J. W. Calvert, of Pewee Valley, Ky., died this morning near Hinton, W. Va., of pneumonia, which developed as a result of catching cold in the snow and sleet on inauguration day. He was eighty-one years old.

## EXPRESS TRAIN WRECKED

Sleepers on Chicago-New York Flyer Are Dismayed.

EASTON, N. C., March 6.—The Chicago-New York express on the Leligh Valley Railroad was wrecked in Packerton yard, about two miles west of this city, to-day.

The last two sleepers of the train were derailed by a broken rail, and the passengers were shaken up, but none was hurt.

## JANITOR CUTS HIS OWN PAIN.

Tells School Board Smaller Amount Is  
Lough for Work.

RAYMOND, N. C., March 6.—Thomas McIntyre, janitor of a Raymont public school, was recently transferred to another school. His salary was \$15 a month. To-day McIntyre wrote the board of education saying he had less work to do in his new position, and suggested that \$10 a month was ample pay. The board accepted McIntyre's suggestion.

## GOODMAN LEAVES GAS TURNED ON

He Is Found Unconscious and Is  
Now in Critical Con-  
dition.

[Special to The Times-Dispatch.]  
NORFOLK, VA., March 6.—Moses Goodman, a Liberty Street merchant, lies in a critical condition at the Lawford Hospital as the result of having been asphyxiated by gas last night at his home on Eleventh Street. It was stated to-day that Goodman had left the gas turned on in the room, and returned late last night and retired without paying any attention to it. Owing to the trouble with the gas main from Norfolk to Berkley, the gas had been cut off for two days, and Goodman, in attempting to light the gas yesterday, left the pipe open.

He was found in an unconscious condition this morning by Joseph Church and hurried to the hospital in an ambulance, where everything was done to resuscitate him, but up to late this evening he had not regained consciousness.

## TAKE HIGH PLUNGE

Boy and Girl Fall Forty-five Feet in  
Church.

NEW YORK, March 6.—A boy and a girl fell through a ventilator in the attic of St. Benedict Joseph Church at Richmond Hill, yesterday, to the floor, a distance of forty-five feet. The lad's injuries will cost him life, but the girl, though badly hurt, may recover.

Little Bertha Buhler, fourteen years old, and Arthur McGuiness, a year younger, were playmates. Both attend Public School No. 51.

When school let out yesterday they started for home together. As they neared the church the boy attended, he told her he would show her the building. They entered, and after looking around the auditorium, Arthur told Bertha he would show her the mysteries of the organ loft.

He showed her where the choir stood and how the organ was manipulated. Then he suggested that they explore the attic. They started up the narrow, winding, dark stairs, but when half way up the girl demurred.

"It's dark up there; I'm scared," she said.

The boy took her hand and coaxingly led her up the narrow, winding staircase.

It was almost pitch dark in the attic, with only a ray of light streaking from a skylight at the farther end. With hands still clasped they groped their way along, the girl trembling with fear. She begged her playmate to take her back, but he called her a coward, and they crept on into the darkness.

They continued until they came to one of the three big ventilators, covered with grill work. They stopped and looked down into the church, where some carpenter was at work. Arthur clung to Bertha's hand. They stepped on the wooden grid work.

The carpenter heard a crash above them and two tiny figures shot through the ceiling and tumbled headlong to the pews.

They picked up the bruised and bleeding children and hurried them to St. Mary's Hospital. The boy had broken bones and was injured internally so that the doctors said they could hardly save him. They spoke more hopefully of the girl's recovery.

Arthur lived at 230 Fulton Street, the girl at Broadway and Sherman Avenue, a few yards away.

## MURDER ALLEGED

Doctor Charged With Giving Sleek Wife  
Dose of Strychnine.

WABASTON, N. C., March 6.—George E. Shearley, twenty-eight years of age, and member of one of the best families in this county, was arrested this afternoon on a charge of murder, the allegation being made by the coroner, after several days' investigation into the circumstances of Mrs. Shearley's death.

It is charged that Shearley attended his wife during her illness, and that he administered to her a dose of strychnine, which the couple did not get along well together, and that on her death she died a convulsion.

Following rumors in the community regarding her death the husband asked the coroner to hold an inquest. Nothing was found in the stomach, but the condition of the body was regarded as conclusive of the use of the drug by injection. The brother of Mrs. Shearley testified that the husband offered him a part of the woman's property if he would stop the investigation.

## HEIRESS MUST WED

Court Holds McClelland So Supplanted  
Providing for Niece.

LEXINGTON, N. C., March 6.—Under a decision of the Kentucky Court of Appeals handed down to-day, it became necessary for Miss Frances McClelland to get a husband before she can legally take a legacy of \$50,000 bequeathed her by the late turkman Byron McClelland, her uncle.

This decision of the appellate court was a reversal of the Fayette county Circuit Court, which tribunal decided that the young woman had the right to the legacy at any time, the suit being a friendly one to properly construe the will of Byron McClelland. The higher court held, however, that the bequest was contingent, and that she had no vested interest in it until the day she married.

## WEDS WAY TO FREEDOM

Man Convicted of Bigamy Marries, and  
Is Pardoned.

FRANKFORT, KY., March 6.—By marrying according to law the woman he had once married, for which he got a sentence of nine years in the penitentiary on a charge of bigamy, E. Hammond this afternoon got his liberty.

The wedding took place in the Governor's office, with Acting Governor Cox as the best man, and other State officials present.

# STOMACH DISORDERS

## Are Primarily Responsible For Nearly All Sickness

### New Theory Proves Sound and Practical

Working on the principle that, as the stomach provides the life-giving fluids, it must therefore be responsible for health or sickness, L. T. Cooper, of Dayton, Ohio, with a fixed determination to bring his idea to fruition, has succeeded in achieving results that have surprised the medical profession.

He has made a life-long study of these conditions and the means of restoring health, vigor and comfort to those who suffered from any ailment which could be reached through the stomach. His success has been remarkable, and from coast to coast his praises have been sung

by those who, through his commonsense efforts, have been brought back from the gloom and despondency of sickness to the glorious blessedness of health.

Cooper's great remedy is known as Cooper's New Discovery and is on sale by leading druggists everywhere throughout the United States. He has thousands of testimonials on file from persons living in all parts of the country, telling of their relief from all kinds of Stomach trouble, Indigestion, Dyspepsia, Liver and Kidney trouble, Constipation, Rheumatism, etc., a few of which indorsements are given below.

MRS. NETTIE C. HARRIS

## What Users of Cooper's New Discovery Say About It

### NERVOUS EXHAUSTION

"I had indigestion and stomach trouble for several years. After eating I experienced a great deal of distress from bloating and frequently had spells of dizziness, when everything seemed to be swimming around and I would have to sit down or catch hold of something to keep from falling.

"I was extremely nervous and lost a great deal of sleep. When I arose in the morning I was as tired as when I went to bed. I was worn out and languid all the time and the least exertion exhausted me.

"I treated with a number of doctors and tried many remedies, but found nothing that would give relief until I began using Cooper's New Discovery. From the very first day I began to improve and in a short time was feeling like a different woman. I corrected my digestion, strengthened my stomach and quieted my nerves. I eat well, sleep well and feel well.

"Cooper's New Discovery has done much for me, and I consider it a wonderful medicine."

MRS. M. E. BUNTING,  
655 Church Street, Norfolk, Va.

### INDIGESTION, NERVOUSNESS, ETC.

"For five years I suffered from acute indigestion, nervousness, constipation and hemorrhoids. Several years ago my husband, thinking I might at any time die in one of the spells of indigestion, took me to my old home in Ohio in order that I might be near my relatives. While there I had twenty-seven attacks, and my life was despaired of.

"Finding that the change had not helped me, and that he could afford me no relief, my doctor advised my return to the seashore. I could do nothing that would benefit me, and almost lost hope of recovery. On reading about Cooper's New Discovery I decided to try it, and procured a treatment. Within a week I experienced a great deal of relief and continued to improve steadily. In a short time I was able to eat food as well as I had been able to for years because of its bringing on terrible attacks of indigestion.

"I had also suffered for many years with an itching in my lower limbs, caused by nervousness, which kept me awake at night, but it passed away soon after I began taking Cooper's New Discovery. The hemorrhoids, which were very distressing, likewise disappeared.

"Cooper's New Discovery toned up my system generally and caused me to feel better in every way, for which I am, indeed, grateful."

MRS. NETTIE C. HARRIS,  
16 S. South Carolina Ave., Atlantic City, N. J.

### CATARRH and STOMACH TROUBLE

"For fifteen years I suffered from a very severe form of catarrh, from which I could get no relief, although I spent a great deal of money taking treatment from physicians and trying other remedies that were recommended from time to time. One doctor said I had consumption and advised me to take plenty of fresh air and cod liver oil. I followed his advice, but grew steadily worse, as the cod liver oil nauseated me and upset my stomach.

"Then I heard of the Cooper remedy, and was finally persuaded to try Cooper's New Discovery. A trial treatment helped me so much that I procured a full treatment and continued its use. In two months' time I was a well man, with no sign of catarrh or stomach trouble remaining.

"As the New Discovery had been so beneficial in my case, I decided to give it to my little four-year-old boy whose stomach and digestive organs were weak. Doctors' medicine had done him no good, but short treatment of Cooper's New Discovery made him well, and he has had no trouble since. I am sure anyone who suffers from stomach trouble that they will make no mistake in giving Cooper's New Discovery a trial."

W. I. PHILLIPS,  
Pulaski, Va.

### SAMPLE BOTTLE FREE

In order to prove the merits of COOPER'S NEW DISCOVERY we will send you a sample bottle by mail absolutely free. The curative value of this remedy is so well known that our readers are urged to send for a sample bottle. Address The Cooper Medicine Company, Dayton, Ohio, and be sure to mention that you read this generous offer in The Times-Dispatch.

officials, employees and newspaper men as witnesses.

The bridegroom wore his prison stripes, but his clothing made no difference to the woman, who has clung to him since he entered the prison, and who has worked for his release. In spite of the fact that she was not the legal wife of the man, it was the first wedding that ever took place in the Governor's office. Governor Cox wanted to perform the ceremony, but the Assistant Attorney-General decided that he did not have the authority; therefore, a minister was called in.

## SAVE FREEZING COMRADE

Timely Rescue by Woodsmen After Scenes of Distress.

RIDGEWAY, PA., March 6.—Andrew Bridgman, a woodsman, came to Ridge way early this afternoon for help, saying: "I'm afraid he's dead by this time."

Claude Lobough, William J. Ryan, two local men, and William P. Schell, a traveling man from Lancaster, left town at 10 o'clock last night to walk to Steyer's Camp, eight miles out, to remain several days to hunt bear.

Two miles from camp Schell became exhausted. Ryan was weak too, and Lobough attempted to carry Schell. The thermometer was at 10 below zero, and after a struggle for one mile, Lobough left Schell, and with Ryan, shuffled to a woodsman's camp. The woodsmen found Schell unconscious, but rubbed his limbs vigorously and applied snow till his body began to show signs of life.

He was brought to the Elk County Hospital this evening. Lobough and Ryan have recovered.

## BEDS FOR HARRIMAN

Orders Fifty Brass Ones of Special Design for Castle.

MIDDLEBOWN, N. Y., March 6.—E. H. Harriman's castle, which he has been building on East Mountain, in the town of Woodbury, for five years, will contain no beds which are not of iron or brass. Mr. Harriman has just placed an order for fifty brass beds of special design.

The castle will have four heating systems—hot water, indirect steam, electricity and wood fires in open fireplaces. It has already cost \$3,000,000, and will cost a great deal more. On May 1 Mr. Harriman expects to occupy a part of the castle.

## MAKE PROTEST

Pennsylvanians and New Orleans Wish to Retain Navy-Yards.

WASHINGTON, D. C., March 6.—As a result of appeals to President Taft and Secretary of the Navy Meyer by a Southern delegation, consisting of Senators Foster and McNary, Representative Broussard, Jule and Estlin, and Representative-elect, Wyatt, from Louisiana, and Senator Tallaferrero and Fletcher, of Florida, the first business to come before the new naval secretary was to investigate the facts concerning the yards and would refer to the law officials of the government; the legal questions which have arisen.

## HARBIN CASE SERIOUS

Russia Fears Foreign Complications—Lewinsky's Plan.

ST. PETERSBURG, March 6.—The situation at Harbin, Manchuria, arising from the apparent determination of the railroad authorities to control the local administration, has become

a live issue in Russian politics. The protests of China and the United States are attracting public attention, and it is believed that the aggressive stand of the railroad authorities will bring about foreign complications. M. Isowsky, the Foreign Minister, has sent a letter to M. Kokovoff, Minister of Finance, urgently advocating the modification of the railroad policy and the adoption of the Foreign Office's plan for the government of all towns in the railroad zone. This step was necessary because under the Russian system the administration of this railroad is in the hands of the Ministry of Finance. M. Isowsky's plan contemplates the retirement of the railroad company from the field of municipal administration, and the substitution of a government similar to that obtaining in other treaty ports, but with the participation of the Chinese residents. M. Isowsky proposes also that the entire question be referred to an international commission.

The negotiations with China will be at a standstill until the policy of the government is determined. The Foreign Office outwardly supports General Horvath in closing the stores of the Chinese merchants who refused to pay taxes to Russia, but privately it is most dissatisfied with the situation. General Horvath has been informed that the Foreign Office has no intention of expelling the merchants in case of their continued refusal to pay these taxes.

The Novoe Vremya sharply criticized the Foreign Office to-day for its stand in this matter, and says it believes Germany is stirring up the question for the purpose of diverting attention from the Near East. The paper intimates that Fred D. Fisher, an recently American consul at Harbin, has been acting in the interests of Germany.

## BY AUTOMOBILE

England Will Make an Experiment in Transportation of Troops.

[Special Cable to The Times-Dispatch.]  
LONDON, March 6.—The adaptability of the automobile to military uses will be experimented upon on a large scale on March 17, when the War Office will attempt to convey a battalion of infantry of full strength from London to Hastings and back on the same day. Hastings being regarded as the

most vulnerable spot for invasion. The troops will be transported in several hundred cars, which will be lent by members of the Automobile Association. The distance covered will be about 150 miles. The task is by no means a light one. The battalion will comprise some 1,000 officers and men, and with it must be carried machine guns, ammunition, the train, medical stores, trenching implements, commissary and water wagons, camp equipment and general stores.

The War Office recently conducted successful experiments in transporting troops in motor busses. Negotiations are now in progress for the use of taxicabs in time of national danger. Already the government has subsidized 2,000, and it hopes to increase the number under subsidy to 4,000 within the next few months, the proprietors receiving payment for the use of the vehicles, and such driver wearing a stripe marked "Territorial forces reserve transport."

## GETS HIGH POSITION

Bank Examiner Goes With American Smelting and Refining Company.

NEW YORK, March 6.—It was reported here to-day that Edward Moxey, who dug up much of the evidence against Charles W. Morse and Alfred H. Curtis, has been appointed to a high position with the American Smelting and Refining Company, and will leave the government service shortly.

## NO RENEWAL

Austria-Hungary Cannot Submit Treaty With Servia to Parliament.

[Special Cable to The Times-Dispatch.]  
VIENNA, March 6.—Count Forgach, the Austro-Hungarian minister at Belgrade, has been instructed to inform the Serbian government that, owing to the attitude maintained by Servia for the last few months, the government of the dual monarchy, to its regret, has not been in a position to submit a renewal of the commercial treaty with Servia, which expires March 31, for parliamentary sanction.

The Austro-Hungarian government, Count Forgach is instructed to add, cherishes the confident hope that Servia will notify Vienna of its intention to maintain peaceful and neighborly

relations with Austria-Hungary. As soon as this notification is received Austria-Hungary will be prepared to negotiate the questions of trade intercourse between the two countries.

## RUSSIA'S GREAT WEALTH

Finance Minister Tells Douma of Nation's Resources.

ST. PETERSBURG, March 6.—M. Kokovoff, Minister of Finance, at the course of the debate on the budget in the Douma tonight emphasized the necessity of maintaining the present monetary system and the gold standard. "At the present moment," said M. Kokovoff, "the stability of our finances is as great as it was before the war and the internal disturbances. Our gold reserve exceeds the colossal amount of 1,200,000,000 rubles (about \$600,000,000). Our gold surplus insurance, our right to raise the currency amount to \$500,000,000 rubles (\$250,000,000). It is often pointed out that our budget is founded entirely on indirect taxes which impose hardships on the mass of the population. If this really is true, the income tax must be instituted, so that we may show that our budget is based on the taxation not of the poorer but of the richer elements."

## Fruits Are Endangered

[Special to The Times-Dispatch.]  
WINCHESTER, VA., March 6.—Four inches of snow has fallen here to-day, and reports from the Valley as far south as Lexington show the storm to be general. Freezing weather will work havoc on the fruit crop, with the trees covered with wet snow, and the orchardists are greatly alarmed.

## BILL IS KILLED

AUSTIN, TEXAS, March 6.—Committee No. 2 of the Senate of the Texas Legislature this afternoon killed by unanimous vote the bill introduced providing for a revival of the cotton exchange and future dealers, which the Texas two years ago by legislative act.
